

Letizia Guel

Ellen Allien Greatest mag

Originally from Spain, currently residing in Berlin and navigated between Paris and London. Letizia brings her eye to settings that are thought-provoking, beautiful, and at times even controversial.

She is principally concerned with human connection, exploration of identity, and gender. For her it is essential to show freedom, diversity and rebellion, and to empower minorities.

Always inspiring the viewer to abandon passivity and transcend obsolete social norms. Letizia uses predominantly photography - including experimental darkroom processes - creating direct, bold, boundary-pushing work
